

CERTIFICATE OF *Appreciation*

This certificate is presented to

PROGRAMME:

DIPLOMA IN ARCHITECTURE

INSTITUTION:

POLITEKNIK PORT DICKSON

for contribution as

**MOST CONSISTENT CDIO PRACTITIONER BY ACADEMIC
PROGRAMME AWARD**

ADVANCING 21ST-CENTURY EDUCATION
THROUGH THE CDIO FRAMEWORK

MCPC

MALAYSIA CDIO PRACTITIONERS CONFERENCE
CONCEIVE . DESIGN . IMPLEMENT . OPERATE

held on

**9 SEPTEMBER 2025
KSL HOTEL, JOHOR BAHRU**

Ir. Dr. Mohamad Tarmizi Abu Seman
Chairman
Malaysian Technical Doctorate Association

MOST CONSISTENT CDIO PRACTITIONER BY ACADEMIC PROGRAMME AWARD

PROGRAMME:

BACHELOR OF SCIENCE IN TOURISM AND HOSPITALITY
WITH HONOUR

INSTITUTION :

POLITEKNIK IBRAHIM SULTAN

PROGRAMME:

BACHELOR OF CIVIL ENGINEERING TECHNOLOGY WITH
HONOUR

INSTITUTION :

POLITEKNIK UNGKU OMAR

PROGRAMME:

DIPLOMA IN ARCHITECTURE

INSTITUTION :

POLITEKNIK PORT DICKSON

ADVANCING 21ST-CENTURY EDUCATION THROUGH THE CDIO FRAMEWORK

MCPCC

2025

MALAYSIA CDIO PRACTITIONERS CONFERENCE

CONCEIVE . DESIGN . IMPLEMENT . OPERATE

09 SEPTEMBER
HOTEL @ JOHOR BAHRU

KEYNOTE SPEAKERS

MYS

SGP

IND

The conference fee is waived

Registration is required for each presenter and for each paper being presented.

Online Presentation - 8 September 2025

Online Presentation includes an e-certificate for one registered presenter

Physical Presentation - 9 September 2025

Physical Presentation includes an e-certificate for one registered presenter

Payment Method for IJTVET

RM70.00

(All additional fees related to international bank transfers are the payee's responsibility)

Beneficiary

Persatuan Kedoktoran Teknikal Malaysia

Account Details: Maybank

Account Number: 569972064781

SWIFT Code: MBBEMYKL

Visit the IJTVET link below for further information:

IMPORTANT DATES :

Call for Papers

10 March - 10 July 2025

Masterclass Writing Workshop Series 1

10 & 11 June 2025

Masterclass Writing Workshop Series 2

1 & 2 July 2025

Full Paper Submission

20 July 2025

Camera-ready Paper Submission

06 August 2025

Publication of e-proceedings

08 September 2025

IJTVET Publication (IJTVET publication is optional, 30% discounted by MTDA & decided by the respective authors.)

Tentative Publication: November 2025

For Enquiries:

Dr. Nor Haniza Mohamad (+60177740850)

CDIO Master Trainer

Ts. Dr. Muhammad Helmi Bin Abu Bakar (+60133882280)

Plenary Session Coordinator

SUBMISSION ACKNOWLEDGEMENT FORM

CDIO SPECIAL AWARD

In conjunction with the Malaysia CDIO Practitioners Conference 2025

- 1. NAME OF AWARD APPLIED: MOST CONSISTENT CDIO PRACTITIONER BY ACADEMIC PROGRAMME AWARD**
- 2. NAME OF APPLICANT: ZURIKA AMNAH @ SALMI BINTI MOHTAR**
- 3. EMAIL ADDRESS: zurikaamnah@polipd.edu.my**
- 4. APPLICANT HANDPHONE NO: 017-2436731**
- 5. NAME OF INSTITUTION: POLITEKNIK PORT DICKSON**
- 6. ADDRESS OF INSTITUTION: KM 14, JALAN PANTAI, 71050 SI RUSA, PORT DICKSON, NEGERI SEMBILAN.**
- 7. INSTITUTION CONTACT NO: 06-662 2111**

Prepared by:

Signature:
Full name: Zurika Amnah @ Salmi Binti Mohtar
Designation: CDIO Coordinator, JKA
Date: 01.08.2025

I hereby confirm that all submitted documents have been reviewed and are deemed valid for the CDIO SPECIAL AWARD submission.

Signature: Deputy Director / Director
Full name: Haji Wan Zulkifly Bin Wan Zakaria
Designation: Director PoliPD
Date: 01.08.2025
Official stamp of the institution:

4D. TABLE OF SUMMARY TO BE SUBMITTED BY APPLICANT - MOST CONSISTENT CDIO PRACTITIONER BY ACADEMIC PROGRAMME AWARD

Criterion	Explanation Based on the Project	List of Supporting Documents Attached
1. Consistency of Application	The CDIO Integrated Learning Experience Module was designed for the Diploma in Architecture programme. This project integrates three core discipline courses. A CDIO project was proposed and implemented for Semester 3 students. The outputs of the project include a building model, working drawings, and a video animation, all of which address the evaluation tasks of each course.	<u>FOLDER: B.Modul & Latihan CDIO DSB</u>  01_Modul_CDIO Integrated Learning Experience.pdf 
2. Active Learning Strategies	Numerous programmes, workshops, and training sessions have been conducted. Learning outcomes are defined for every activity to ensure they are achieved. Cross-course integration is one of the CDIO practices designed to promote engagement. Collaboration with industry and real-world projects helps complete the CDIO practice cycle.	<u>FOLDER: D. 3. Quality of Student Output	These are the sample project from students who have undergone the module. As expected, students were able to design and produce high-quality work. The process began with building design in the <i>DCA30114 Design Studio 3</i> class. Integration with <i>DCA30123 Working Drawing</i> allowed students to understand the construction aspects of the building. The building proposal was clearly explained through a supporting video animation produced in the <i>DCA30132 3D Animation and Rendering</i> course.	<u>FOLDER: C.Hasil Modul CDIO DSB</u> Folder DCA30114 Folder DCA30123 Folder DCA30132 DCA30114 DESIGN STUDIO 3 PDF 01_CASE STUDY_MIZANUL KUBRA BIN SALIHAN.pdf PDF 02_DESIGN PROCESS_MIZANUL KUBRA BIN SALIHAN.pdf PDF 03_MID TERM PORTFOLIO_MIZANUL KUBRA BIN SALIHAN.pdf PDF 04_PROJECT_MIZANUL KUBRA BIN SALIHAN.pdf

4. Programme Monitoring & Improvement	Programme monitoring and improvement are conducted periodically throughout the year. Industry panels were invited to evaluate the students' work. This is important to ensure continuous actions are taken to keep the programme relevant to industry needs.	<u>FOLDER: E, Maklum Balas Industri</u>  draf MINIT MESYUARAT IAP BIL 1 2025.pdf   draf MINIT MESYUARAT IAP BIL 1 2025-1.pdf   Minit mesyuarat dsb bil 2_2022.pdf   Minit mesyuarat dsb bil 1_2022.pdf   minit mesyuarat dsb bil 1_2023.pdf   MEMO DALAMAN dsb mtg bil 1_2023.pdf   SLIDE Mesyuarat Jawatankuasa Penasihat industri 123 (2).pdf   SURAT PELANTIKAN JAWATANKUASA HARI PENILAIAN PORTFOLIO OL...   kehadiran panel port folio dsb 2024.pdf 

5. Faculty Engagement

The CDIO programme began with a series of workshops, starting with the programme design at the JPPK headquarters before being introduced to the Architecture programme at Politeknik Port Dickson. Prior to each semester, a series of workshops and meetings were held to plan the CDIO project for the upcoming term.

6. Evidence of Impact	Positive feedback and comments from industry partners reflect the high quality of the students' work. The implementation of the CDIO approach has helped students stay focused and produce better outcomes by saving time through integrated learning. As a result, more companies are willing to hire these students and offer them opportunities for industrial training.	<u>FOLDER: E. INTEGRATED LEARNING EXPERIENCE

Semester 3

DCA30114 - Design Studio 3
DCA30123 - Working Drawing 2
DCA30132 - 3D Modelling & Animation

**Table 4 - The Integrated Curriculum Model of DSB programme
for Year 2 Semester 4**

Learning Outcomes / CLO1 Course	CLO2	Program Learning Outcome (PLO)	Assessments
DCA40155 (Design Studio 4)	Evaluate the design ideas for public community building based on presentation technique.	C5, PLO2	Design Process: 10% Presentation: 15%
DCA40182 (Environmental Science)	Analyse data of environmental performance for selected buildings in a tropical climate.	C4, PLO2	Case Study: 30%
DCA40202 (Digital Imaging)	Justify entrepreneurial skills by the production of digital imaging through the computer graphics application.	A3, PLO7	Creativity Task: 20%
DCA40212 (Landscape Design)	Organize information to produce a landscape design for a small landscape project.	P4, PLO5	Project: 30%
